

Environmental and Cultural Reviews

Rob Hunt and Jeffrey Alvey

Broadband Funding – USDA ReConnect Workshop

December 15, 2021

The Department of Natural Resources can provide reviews for three key areas

- Environmental reviews: National Environmental Policy Act (NEPA)
- Cultural Reviews: National Historic Preservation Act Section 106
- Recreational Property Review: Land and Water Conservation Act Section 6(f)

Environmental reviews will consider land, water, air, and geological resource impacts

- Review is coordinated by the Director's Office
- Review is conducted by Missouri Geological Survey, Water Protection Program, Air Pollution Control Program, appropriate regional office, and Waste Management Program
- Mail or email your project description and review request to Rob Hunt

Missouri Department of Natural Resources
Director's Office
Attn: Rob Hunt
PO Box 176
Jefferson City, MO 65102-0176
Rob.Hunt@dnr.mo.gov

Recreational property reviews will consider impacts to some parks and other recreational properties

- Contact DNR when you need to determine impacts on two kinds of public parks: Missouri's State Parks and parks protected by the Land and Water Conservation Fund (LWCF) Act
- Email a letter describing your project and potential impact to parks. Include a map, plans (if you have them), information about any interest in real property that must occur as part of the project (i.e. a new permanent easement or lease)
- Pro tip! LWCF protects can take many forms, including small city parks or playgrounds at public schools

PO Box 176
Jefferson City, MO 65102-0176
Samantha.Berhorst@dnr.mo.gov

Cultural resource reviews will consider above- and below-ground cultural resources

- Submit project info along with SHPO's Section 106 Project Information Form found on website: MOSTATEPARKS.COM/SHPO
- Very important details:
 - Provide good locational information (e.g., spatial coordinates, maps, etc.)
 - Visual impacts on historic properties?
 - Nature of ground disturbance
 - Within previously disturbed utility corridors or undisturbed areas?
